RUN NO 3: Tony Dixon

20 Ronan Road. From Durban, take the Mt. Edgecombe turn-off, first left into La Lucia, first right into Ronan Road.

TIME: 5.15 for 5.30 pm

DATE: 6 October 1981

RUN NO 2 :

Set, once again, by Lorry and Garth Berg. These two stepped into the breach for John Pammenter - a proud achievement as many men have stepped in afterwards but very few instead of. Anybody getting their running shoes that muddy twice in one day is well deserving of thanks.

The run started late, somebody (who'd never played rugby for Northlands) said we should wait for Ken Reardon - a futile gesture. Off into the cane once more and it was soon obvious that the Hares had received prior notice of Tony Dixon's non-appearance because the run was both long and fast. After a while some interesting smells arose which led to conjecture as to Richard Kernicks' lack of shoe-washing after last Tuesday but apologies were in order when we came across rotting cane bagasse - an understandable error. The latter half of the run can be summed up in the words of Ayn Rand, "..... and then the darkness fell." The clouds which had been present now cut off all light and it was only a highly-developed knowledge of the local topography that enabled Steve Evans to lead us home.

Hash Rules - in brief:

These will be set out in detail in a subsequent letter but briefly are ;

1. Paper, 3-inch squares every 10 yards, to be followed.
2. Check-points at (seemingly) junctions consisting of 6 to 8 pieces of paper grouped together. From this point the trail will be resumed within anything from 50 to 200 metres.
3. False trail - go back to the check-point. The same 6 to 8 pieces of paper but torn into triangular shapes.

RECEDING HARELINE:

6.10.81	No 3	Tony Dixon
13.10.81	No 4	Ben George
20.10.81	No 5	Danny Rowbotham
27.10.81	No 6	Steve Evans

HASH TRASH:

How to satisfy an 8ft man?
Screw two 4ft girls together.

ON ON

Danny Rowbotham.
