From town along Northern freeway, take Glenashley turn-off - on-on up Marion Avenue to stop street. At stop street turn right into William Campbell Drive, turn second left into Addison Drive.

RUN NO. 32 GARTH BERG AND TONY DIXON

Six hundred metres from the Oasis on the way home, somebody stopped me and asked did I know that I'd just gone thru' a yield sign at high speed. I then looked at the time which was 20h54, hash run having finished at 18h35. 'Nuff said on the success of that particular après-hash.

The après-hash being only slightly less successful than the run itself. The largest pack for many weeks set off in a "fairly predictable" manner, very predictable in the paper leading into the stadium especially with Alec Thomson shouting from afar. However Celfyn Thomas blindly followed paper (I'd always thought it was a trait of the Irish) and exhorted the pack to follow. Shortly thereafter the obvious side of the run ceased. Thru' the golf course and alongside the river the flickering torches ran. Tony assured us the route in daylight was magnificently scenic but we'll have to take his word for it.

Finally home along the beachfront; just around the corner said Trevor McWade. After his fifth such utterance no one of the four accompanying him rated his veracity too highly.

Hereupon I'll end as recently I was told that a newsletter should resemble a good bra' - keep all the loose parts together and point them in the right direction.

NEW FOOTPRINTS : Wally Nicol (the chap who confused his running shorts with his wife's).

RECEDING HARELINE :
